SKILLS

- **Languages:** C++, Java, Python, JavaScript
- **Web & Frameworks:** HTML, CSS, Tailwind CSS, PHP, React.js, Express.js, Node.js
- **Tools/Platforms:** GitHub, Git, XAMPP, VS Code, Postman, Vite, Excel, phpMyAdmin
- **Database:** MySQL, MongoDB
- **Course Work:** Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, OOP
- **Soft Skills:** Problem-Solving, Team Management, Adaptability, Critical Thinking

PROJECTS

- PlaceMentor - Student Placement Portal | [GitHub](#)**

Feb' 26
- Built a full-stack placement portal with separate Admin and Student dashboards using **React, Node.js, Express**, and **PostgreSQL**.
 - Implemented company postings, student applications, result updates, notifications, and interview experience modules, improving placement process **efficiency by 40%**.
 - Integrated **AI Resume vs JD analysis** to provide match scores, identify missing skills/keywords, and suggest **ATS-friendly CV improvements**, increasing resume shortlisting **readiness by 50%**.
- RenewBazaar - Second-hand Goods Marketplace | [GitHub](#)**

Apr' 25
- Built a responsive marketplace interface with **HTML, Tailwind CSS, and JavaScript**, enabling smooth browsing of 1,000+ second-hand product listings.
 - Developed product listing, cart & checkout, house booking, and user dashboard modules using **PHP, MySQL, XAMPP**, improving overall platform **performance by 35%**.
 - Implemented secure authentication, optimized **CRUD** operations, and **CDN-backed payment handling** through a **PHP-MySQL backend**, ensuring faster and reliable user transactions.

TRAINING EXPERIENCE

- Full Stack Development (Mentored Project) - Cipher Schools**

Oct '25 - Nov' 25
- Nearest Hospital Locator - Hospice (MERN) | [GitHub](#)**
- Developed a **location-based Nearest Hospital Locator** using **Leaflet.js, OpenStreetMap** to display nearby hospitals with real-time distance calculation.
 - Integrated **Twilio WhatsApp API** to enable secure real-time **doctor-patient chat communication** for remote medical consultation and emergency guidance.
 - Implemented a **government scheme funding information** by processing **Excel-based scheme data** to determine and display the **eligible funding amount** for users based on their profile and scheme criteria.

CERTIFICATIONS

- Cloud Computing, [NPTEL](#)

Oct' 25
- OCI Generative AI Professional, [Oracle](#)

Oct' 25
- Algorithmic Problem-Solving, [GeeksforGeeks](#)

Sep' 25
- Full Stack Web Development (MERN), [Cipher Schools](#)

Jul' 25
- MongoDB Certified Developer Associate, [MongoDB](#)

Jun' 25

ACHIEVEMENTS

- Solved **400+ Leetcode problems** and earned **100+ day consistency badge**, reflecting strong analytical skills.
- Certified '**Prathiba Puraskar**' for excellence in Intermediate board exams.

EDUCATION

- Lovely Professional University**

Bachelor of Technology - Computer Science and Engineering | CGPA: 8.72

Phagwara, Punjab
Aug'23 – Present
- Aditya Junior College**

Intermediate(PCM) | Percentage: 96.1

Kakinada, Andhra Pradesh
Apr'22 – Mar'23
- Narayana E-Techno School**

SSC | Percentage: 98.6

Kakinada, Andhra Pradesh
Apr'20 – Mar'21
