SKILLS

- **Languages:** C++, Python, Java, JavaScript
- **Web & Frameworks:** HTML, Tailwind CSS,PHP , React.js, Express.js, Node.js
- **Tools/Platforms:** GitHub, Git, VS Code, Postman, Vite, Docker
- **Database & Caching:** MySQL, MongoDB, PostgreSQL, Redis
- **Course Work:** Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, OOP
- **Soft Skills:** Problem-Solving, Team Management, Adaptability, Critical Thinking

PROJECTS

- AxionLimit - API Rate Limiter & Analytics Platform | [GitHub](#)**

May 2026 - Jul 2026

 - Developed a centralized API Rate Limiting service using a Sliding Window algorithm via Redis Lua scripts, achieving sub-millisecond atomic checks to prevent race conditions.
 - Implemented a zero-trust API Key security model using SHA-256 hashing with one-time raw key disclosure, customizable per-key rate quotas and multi-language integration snippets.
 - Architected a real-time analytics pipeline using non-blocking Redis telemetry, tracking live request traffic, allowed/blocked counts and exact endpoint traffic on an interactive dashboard.
 - **Tech Stack:** Node.js, Express.js, React.js, MongoDB, Redis, Lua, Google OAuth 2.0, JWT
- PlaceBridge – Campus Recruitment Management System | [GitHub](#)**

Feb 2026 - Apr 2026

 - Engineered a full-stack recruitment management system with role-based access control for students, placement officers, and interviewers.
 - Implemented AI-based resume parsing and candidate ranking using a local transformer model, enabling semantic resume evaluation with explainable skill and project matching.
 - Orchestrated a secure token-based interview workflow with real-time status updates, notifications, and an interview experience module to streamline campus hiring.
 - **Tech Stack:** Node.js, Express.js, React.js, PostgreSQL, Socket.IO

TRAINING EXPERIENCE

- Nearest Hospital Locator - Hospice | [GitHub](#)**

Nov 2025 - Jan 2026

 - Developed a location-based Nearest Hospital Locator using Leaflet.js, OpenStreetMap to display nearby hospitals with real-time distance calculation.
 - Integrated Twilio WhatsApp API to enable secure real-time doctor–patient chat communication for remote medical consultation and emergency guidance.
 - Implemented a government scheme funding information by processing Excel-based scheme data to determine and display the eligible funding amount for users based on their profile and scheme criteria.
 - **Tech Stack:** Node.js, Express.js, React.js, MongoDB, JavaScript, Twilio API, Ngrok

CERTIFICATIONS

- Full Stack Web Development (MERN), [Cipher Schools](#)

Nov 2025 - Jan 2026
- Cloud Computing, [NPTEL](#)

Oct 2025 - Dec 2025
- OCI Generative AI Professional, [Oracle](#)

Oct 2025 - Nov 2025
- Algorithmic Problem-Solving, [GeeksforGeeks](#)

Aug 2025 - Sept 2025

ACHIEVEMENTS

- Solved **500+ Leetcode problems** and earned **100+ day consistency badge**, reflecting strong analytical skills.
- Recognized on the **Dean's List** for academic excellence, ranking among the **top 10%** of students.

EDUCATION

- Lovely Professional University**

*Bachelor of Technology - Computer Science and Engineering | **CGPA: 8.83***

Phagwara, Punjab
Since Aug 2023
- Aditya Junior College**

*Intermediate(PCM) | **Percentage: 96.1***

Kakinada, Andhra Pradesh
Apr 2022 – Mar 2023
- Narayana E-Techno School**

*SSC | **Percentage: 98.6***

Kakinada, Andhra Pradesh
Apr 2020 – Mar 2021
