SKILLS

Languages:	Python, C, Java, C++
Tools/Platforms:	Excel, Power BI, MySQL, VS Code, Idle
Soft Skills:	Problem-Solving, Team Player, Project Management, Adaptability
Data Science:	NumPy, Pandas, Scikit-learn, EDA, Matplotlib, Seaborn, ML

PROJECTS

<u>Superstore Analysis using Python</u> Python, Predictive Analysis, pandas, NumPy, Matplotlib	March'25
- Analyzed Superstore sales data to uncover trends across years, regions, and categories. - Built visualizations including line charts, heatmaps, pie charts, and area graphs. - Extracted insights on top-performing cities, products, and discount levels.	
<u>Learner Behavior & AI Impact Analysis using Power BI</u>	Dec' 25
- Built a 3-page interactive Power BI dashboard to analyze student performance, engagement, and AI impact. - Used Power Query, data modeling, and DAX to create KPIs for score, error rate, confidence, and learning gains. - Showed that AI improves performance & reduces errors, and high engagement increases confidence.	
<u>Salary Prediction & Model Comparison using Machine Learning</u> Python, Scikit-learn, Pandas, NumPy, Matplotlib	Dec'25
- Built an end-to-end ML pipeline with data preprocessing, feature encoding, scaling, and missing value handling. - Trained and compared Linear Regression, Polynomial Regression, and Random Forest using MAE, MSE, RMSE, and R² metrics. - Identified the best-performing model and visualized actual vs predicted salaries for performance evaluation.	

TRAINING

<u>Java Maestro</u>	May'25 – June'25
GUI application using Java, swing, JFrame	
- I gained hands-on experience in developing Java-based GUI applications using Swing and JFrame. - Worked on designing user interfaces and implementing event handling. - Integrated backend logic with GUI components to build interactive modules.	

CERTIFICATES

• <u>ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM</u> - Infosys	Aug'25 – Sep'25
• <u>Build generative ai apps , master generative ai</u> - Udemy	Sep '25 – Oct'25
• <u>Social Networks</u> - NPTEL	Jan' 25 – April'25
• Programming Certifications in <u>C++</u> , <u>DSA</u> and <u>Java</u>	Aug'24 – May'25

Achievements

• Participated in <u>Innovate-X 24-Hour Hackathon</u> and advanced to Level 2 among competing teams	Mar' 24
• Solved programming challenges on platforms like <u>Hacker Rank</u> , <u>code chef</u> , <u>Leetcode</u> to strengthen problem-solving and logic- building skills	

EDUCATION

<u>Lovely Professional University</u>	Phagwara, Punjab
Bachelor of Technology	Aug' 23 – Present
Computer Science and Engineering. CGPA: 6.5	
<u>Vagdevi Junior College</u>	Suryapet, Telangana
Intermediate	June' 21- May' 23
Percentage: 86	
<u>Don Bosco High School</u>	Nalgonda, Telangana
Matriculation	June' 20 – April' 21
Percentage: 100
